Behaviour when left alone for up to 3 hours during the day		✓		
Behaviour when greeting people		✓		

Comments

Tilly is a bright and happy little girl who is making good progress in her training. She has been fitted with her puppy training jacket which she has accepted without any problems. She goes to the park or nearby fields about three times a week to have a good run around and is generally very good at coming back when she is called. She is a lovey girl.
